# The Decision Making Process

## STEP 1

BC Housing made a proposal to construct and operate a permanent housing facility to meet the needs of the community.

May 2016

## STEP 2

The City of Maple Ridge purchases a property that will meet BC Housing's criteria around accessibility to health care and social services, community amenities and public transportation.

We are here

## STEP 3

BC Housing develops a detailed design for the proposed facility based on the property's characteristics.

## STEP 4

BC Housing submits the Development Application for the supportive housing and shelter facility.

## STEP 5

The application follows the City's normal Development Process outlined in the chart below which includes public engagement opportunities .

## STEP 6

If the City of Maple Ridge grants rezoning of the property BC Housing will apply for the appropriate Building Permits and begin construction of the facility.

## STEP 7

The transition plan is implemented to close the current emergency shelter and begin operation of the new facility.
