

240 Street Road and Drainage Improvements

Welcome to our Open House

Project Location

- 240 Street from south of 102 Avenue to 104 Avenue

Pedestrian and Bicycle accommodation on East side

240 Street Road and Drainage Improvements

Project Scope

- To design and construct an interim multi-use (pedestrian & cyclist) pathway
- Pathway will be constructed on the east curb line of 240 Street between 104 Avenue to approximately 100m south of 102 Avenue
- New storm sewer will be installed and East side ditch will be filled in

Road Widening and Multi-Use Path to be constructed on East side

240 Street Road and Drainage Improvements

Project Objectives

- To construct an interim pedestrian/cyclist connection for a developing area of Maple Ridge
- Construct in advance of development a temporary multi-use pathway between 104 Avenue to approximately 100m south of 102 Avenue

East side ditch to be infilled

240 Street Road and Drainage Improvements

Existing pathway on West side to remain, separated from traffic

Project Timeline

- Design (Summer 2010)
- Construction (Fall 2010)
