FIRE HYDRANT USE PERMIT

Required Date(s): _____ Time: from _____ to: _____
Applicant: _____ Phone: _____
Address: _____
Location of Hydrant: _____
Hydrant ID Number: _____

CONDITIONS OF PERMIT:

This permit is for the use of the fire hydrant at the above mentioned location, date(s) and time only.
Contact the Operations Centre at 604-467-7363 to confirm the required date.
The permit holder must provide and install an isolating valve and backflow preventer. (Available at local rental outlets)
The District of Maple Ridge water distribution system contains chlorine. The permit holder is responsible for the de-chlorination of any water discharged to sensitive areas such as but not limited to creeks, rivers, and the storm sewer system. De-chlorination is normally achieved with the use of sodium thiosulphate.
The applicant is responsible for obtaining any permits necessary from the Ministry of Environment when discharging water to sensitive areas.
Repair costs will be charged to the applicant if the fire hydrant is damaged during the operation of this permit.
The District is not responsible for any property damage or general public damages during the use of this permit.

INFORMATION ON THE USE OF FIRE HYDRANTS:

1. Open fire hydrant fully to allow isolating valve to control flow.
2. Close fire hydrant down slowly and do not over tighten.
3. Do not put cap on hydrant until it is fully drained.
