

LION'S PARK

MAY 2018 - COMPLETED

Come check out the newly installed basketball court, pump track and junior scooter course at Lion's Park (12100 Laity Street). This project was part of a life-cycle replacement of the old tennis and basketball courts that needed to be repaired. Community consultations suggested the idea that a pump track and scooter course would be a great fit for the neighbourhood.

SPRING 2018 - CONSTRUCTION

Construction started on the new pump track, junior scooter course and basketball court.

OCTOBER 2017 - DESIGN DEVELOPMENT

Detailed design and project tendering were completed during the fall and winter months.

SEPTEMBER 2017 - OPEN HOUSE

Maple Ridge Parks, Recreation & Culture hosted a drop-in open house on September 7, 2017 to present the concept plan for a renovation to the sports court at Lions Park.

2015 - CONCEPT

Initial neighbourhood consultation was done in 2015. Input garnered from the previous consultation was used to develop the concept plan.
