

# WHONNOCK LAKE SWIM DOCK

## JUNE 2019 - COMPLETION

The dock at Whonnock Lake is now open again after being fully replaced this spring. The wooden approach to the dock was also replaced, along with the abutments and side wall. The approach to the dock was straightened and levelled making the transition from land to the floating section of the dock less steep.

## MAY 2019 – CONSTRUCTION

The dock and beach area immediately surrounding the dock were closed for 4-6 weeks starting in mid-May, 2019 for construction.
