

Maple Ridge

LISTEN TO THE WIND

33243 Reddrop Lane

The Maple Ridge Story

Did you ever bury a time capsule as a child, filled with keepsakes from your generation for a future one to uncover? That's how we view film - each production as their own time capsule. More than just an economic benefit, Maple Ridge film preserves our community through time and brings to life hundreds of your favourite stories, characters, and moments that may have never otherwise existed, creating movie magic just outside your door. Whether set across the world as in Shōgun or in a fictional universe like Jumanji, one constant remains: everything is filmed right here in Maple Ridge for generations to see!
